FOR A DISCUSSION ITEM
Overview of the Issue
- For the last three months, I have been the sole contributor to the HQ. I have posted at least three new programs a month. With the sudden shelter-in-place order and the temporary pause on in-house library programs, it's been an adjustment to post remote programming. In the first month of quarantine, I reached out to teen library workers on Instagram and Facebook and asked if I could promote their teen Instagram accounts and their escape room programs. Since then, I have been posting about my library's remote programming.

Questions for the Board's Consideration: N/A

Financial Implications: N/A

Evaluation/Measuring Impact: N/A

Alignment to Equity, Diversity and Inclusion Goals: N/A

Possible Next Steps:
- For the next three months, I will continue to post about remote programming based on my experiences and I will ask other YALSA members to share their programs with the HQ.
